Designs

Use your logo and design, or if you need ideas, the Fiesta custom art department will help find artwork to enhance your custom piece. Add design elements to enhance your message. Many designs are available through clip-art sources at no charge and others are available for very low fees.

Lettering

Lettering styles or fonts are design elements too. Fonts add "personality" to logos and texts. The best font style is legible, easy to read, lends itself to embroidery or silk-screening, and fits with the style and tone of your business.

Examples of popular fonts:

Times Roman

Custom T-Shirt and Hoodies

Century Gothic

Lucinda Calligraphy

Lucida Blackletter

Lettering Colors

Use single colors or multi-color "rainbow" text effects. Color adds another element to maximize the impact of your message.
